

## Learn How to Prepare Your Company for an Active Shooter

### Learning Objectives

- Understand the characteristics of an Active Shooter
- Understand the basics of Workplace Violence
- Understand the need for an Emergency Action Plan for intelligent threats and workplace violence
- Understand the essentials of an Emergency Action Plan and how to create one and put it into effect for your business

### When

June 10<sup>th</sup>, 2015  
12:00pm – 2:00pm  
(Lunch will be provided)

### Where

DoubleTree Hotel by Hilton  
1075 Holcomb Bridge Rd  
Roswell, GA 30076

### Objectives of the Presentation:

Do you have a plan in place if the unspeakable scenario were to occur where an active shooter enters your building or campus with the intent to harm others? Do you have procedures in place to mitigate the loss of life if such an event were to occur? Have you discussed with your employees what to do if violence on your campus takes place? Are you aware that the Occupational Safety and Health Administration (OSHA) mandates that you have a plan in place for emergencies above and beyond a fire escape plan?

The class will cover the general characteristics of an active shooter and workplace violence, how to reduce loss of life, and lessons learned from previous active shooter events around the country. You will understand active shooter or workplace violence scenarios and what steps you can take to help protect your most valuable assets – the lives of your employees and children in your school.

### Speaker: Chris Wise

Chris Wise is an expert in the design and implementation of physical security components, has been in the security industry for the past 28 years. His background in physical security and systems integration combined with his background in starting, running, and successfully expanding his own security company gives Mr. Wise a unique perspective and set of skills as he moves on to the next phase of his career, the founding and start-up of Invictus Consulting, LLC.

Invictus Consulting, LLC evaluates, assesses, determines, and employs strategies that mitigate the risk of intelligent threats, specializing in active shooters. Invictus has a long-term vision where security plans for intelligent threats are as commonplace as fire evacuation plans. Our team specializes in creating plans for active shooters, with decades of experience in real life experience engaging active shooters, hostage situations, and barricaded gunmen; training of SWAT teams around the country on how to respond to active shooters; and developing and implementing law enforcement active shooter programs.
